Information Systems student with hands-on experience in measurably improving security, efficiency, and business processes. Experience spans enterprise infrastructure, cybersecurity, automation, web systems, cross-platform support, and data.

EDUCATION

Bachelor of Science: Information Systems **Apr 2028**
Brigham Young University - Marriott School of Business, Provo, UT

- GPA: 3.97 | Full tuition academic scholarship
- Clubs: Media/Website Manager, BYU Cybersecurity Students Association | Member, Association for Information Systems
- Relevant Courses: Cybersecurity, IT Infrastructure, Business Programming, Database Systems, Statistics, Spreadsheets

TECHNICAL SKILLS

Systems & Security: Active Directory, Group Policy, Microsoft MCM, Jamf Pro, Falcon LogScale, Linux, Windows Server
Cloud & Infrastructure: OpenShift Virtualization/Container, Kubernetes, Ansible/AWX, Terraform, Kasten, AWS, Azure, Bash, PowerShell
Development: Python, JavaScript, VBA, HTML/CSS, SQL/PostgreSQL, Git/GitHub, Agile, Brightspot, WordPress
Data & BI: Tableau, Power BI, SQL, PostgreSQL, Advanced Excel, Google Analytics
Certifications: CompTIA Security+, Scrum PSM I, Mendix Rapid Developer, TestOut PC, Network, Security Pro
Project Experience:

- Built a Python/BeautifulSoup ETL pipeline to scrape, clean, and store General Conference data in a PostgreSQL database for structured analysis
- Completed 40+ rooms on TryHackMe, covering cybersecurity, Linux, networking, DevOps, and security best practices

EXPERIENCE

Student Platform Engineer **Aug 2026 – Present**
BYU Office of Information Technology, Provo, UT

- Administer and audit enterprise infrastructure using OpenShift Virtualization, Microsoft MCM, Kasten, and Falcon LogScale, maintaining >95% uptime for customers according to SLA requirements
- Configure and troubleshoot containerized and virtualized environments using Kubernetes and OpenShift while supporting security hardening, monitoring, and documentation, completing tickets/requests in <24 hours
- Develop infrastructure automation and configuration workflows using Ansible, AWX, and Terraform alongside full-time platform engineers, replacing antiquated automation routines and improving overall security

Student Computer Support Representative **Dec 2025 – Aug 2026**
BYU Geological Sciences, Provo, UT

- Built and documented a Mendix scheduling app from scratch, reducing staff scheduling time by ~60%; improved BYU Geology website accessibility in Brightspot, reducing noncompliant elements by >85%
- Identified and mitigated vulnerabilities using Falcon LogScale, Microsoft MCM, Jamf Pro, and Action1; proposed and implemented Action1, reducing critical vulnerabilities by >50%
- Configured, maintained, and troubleshot 100+ Windows, macOS, and Linux computers with >98% uptime; supported Active Directory and inventory systems with >95% accuracy during system migration

WordPress Web Design Intern **Dec 2025 – Apr 2026**
Sterling Furniture Company, Sugar House, UT

- Lowered website bounce rate by ~25% by redesigning and deploying the company WordPress website
- Reduced warehouse administration time >75% by implementing a digital inventory management system
- Cut social media administration time >30% by developing AI-assisted content workflows

Volunteer Representative – Spanish Fluency **Aug 2023 – Aug 2025**
The Church of Jesus Christ of Latter-day Saints, Medellín, Colombia

- Led 10+ district council meetings, improving KPIs by >50% at certain periods
- Automated inventory management and financial systems using Excel, reducing weekly administrative work by 4+ hours

Head Lifeguard / Swim Instructor **Aug 2020 – Aug 2023**
South Summit Aquatic & Fitness Center, Kamas, UT

- Managed shifts, balanced pool chemicals, prevented emergencies, and taught children across age groups how to swim
